«PeakTech® P 7620» microfuse ~ 10 A / 500 V ~ 6.3 x 32 mm ~ super fast acting (FF)

€1.39

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 7620

GTIN/EAN: 4250569402876

Description

Modern device fuses with ceramic bodies offer a significantly higher level of protection against damage to the measuring device when triggered than conventional glass fuses. Due to the larger design, a voltage flashover between the internal fuse holders of modern measuring devices can be effectively prevented even with high test current voltages. Triggered fuses may only be replaced with replacement fuses of the same design and specifications in order to guarantee the safety of the device and thus also the safety of the user in future measurements.

Technical features

Specifications

Construction:	6,3x32 mm
Nominal current (A):	10 A
Nominal voltage (V):	500 V
Package unit:	10 Stk.
