«PeakTech® P 8101» Measurement Equipment Set "Electro"

€159.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 8101

GTIN/EAN: 4250569403507

Description

Practical measuring device set for the electrical installer, service technician in electrical engineering or industry. In addition to direct and alternating currents up to 80 A, the enclosed P 4350 current probe can also be used as a full-fledged multimeter. A contactless voltage detector (P 1030) is included for quick and uncomplicated testing. If voltages or rotating fields are to be measured, the P 1095 two-pole voltage tester can be used.

Technical features

- Integrated lock
- Stable carrying case for all kinds of work
- Voltage tester PeakTech 1030
- Current clamp PeakTech 4350
- Two-pole voltage tester PeakTech 1095

Specifications

Contains:	Carrying case, Current clamp multimeter, Meas. adapter, Test leads, Thermocouple element, Voltage tester (non-contact), Voltage tester (two-pole)
