«PeakTech® P TF-25» Clamp Temperature Probe, -20 °C … + 200°C

€24.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P TF-25

GTIN/EAN: 4250569403385

Description

For temperature measurements in heating and air conditioning, as well as many other temperature measurements this kind of temperature sensors are needed, which can be connected with stable clamping pliers directly to the system to be measured. This clamp temperature probe is ideally suited for this due to its large clamp opening and the strong spring system. This makes this temperature sensor an indispensable tool for every service technician and fitter in the refrigeration and air conditioning technology sector, as well as for the installation and maintenance of heating systems.

Technical features

- Measures temperatures up to 200°C
- Clamp Temperature Probe for pipes, cables and hoses
- Sturdy design with spring mechanism
- Type-K connection for all common instruments

Specifications

Accuracy:	+/- 3%
Cable Length:	ca. 70cm
