Description

This AC / DC laboratory power supply has two separately adjustable outputs which can dispense AC/DC voltages from 0 - 30 V as well as DC/AC current 0 - 6 A. On two separate 3-digit LED displays, it's possible to read the exactly output of the AC/DC voltage and the AC/DC current. Due to the possibilities offered by this device, it is also suitable for the maintenance of small AC circuits, transformers and lights.

Technical features

- AC and DC combined power supply with 14 mm blue LED-displays for AC/DC voltage and current
- Double power supply adjustable from 0 V to 30 V AC / DC
- Current limit adjustable 0 A to 6 A AC / DC
- Electronic overload protection at the AC output
- Safety: EN 61010-1
- Accessories: power cable and manual
