

«PeakTech® P 6170» Laboratory power supply 0-60 V / 0-2,5 A DC

€159.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 6170

GTIN/EAN: 4250569406591

Description

This linear regulated laboratory power supply offers reliable performance and high safety thanks to an integrated safety transformer. With an adjustable output of 0 - 60 V and 0 - 2.5 A DC, it is versatile and ideal for various applications in the laboratory and workshop. It has a current preselection function that allows the desired current value to be set before the load is connected. The four-digit LED displays in blue clearly and precisely indicate voltage, current and power. The output button only outputs the selected settings to the output after they have been set, which prevents unintentional changes and provides additional safety. The temperature-controlled fan automatically adjusts to the temperature of the device, ensuring efficient cooling and quiet operation. With two potentiometers for coarse and fine adjustment of current and voltage, the desired values can be set quickly and precisely. This laboratory power supply is ideal for users who appreciate precise settings, safe operation and reliable performance.

Technical features

- Output adjustable from 0 - 60 V and 0 - 2.5A DC
- 4-digit segment display for current, voltage and power
- Potentiometer for coarse and fine adjustment
- Overload protection and short-circuit proof
- Temperature-controlled fan

PeakTech Prüf- und Messtechnik GmbH

Gerstenstieg 4

DE-22926 Ahrensburg

www.peaktech.de

- High load stability and low residual ripple
- Sturdy metal housing with carrying handle
- Output of safety extra-low voltage (SELV)
- Safety: EN-61010-1, EN 61558-2-6
- Accessories: Mains cable, operating instructions

Specifications

Channels: 1 CH

Cooling: Active

Display Type: Segment

Input voltage: 115 - 230 VAC 50/60 Hz

Output Current: 0 - 2.5 A

Output Voltage: 0 - 60 V DC

SELV:
