## Description

This digital LCR measuring device has a large 4 ½-digit LCD display (max 11000) for quick and precise reading of measured values. The measuring device is equipped with a large measuring range of up to 110 mF, which is used when testing capacitors in the Audio / HiFi or amateur radio area. Inductors (coils) can be measured up to 20 H and resistances up to 20 MΩ. The device also includes a diode and continuity test function. Thanks to its simple operation and technical performance, the PeakTech 2175 is the ideal helper in the service and repair area.

## Technical features

- 4 1/2-digit 27 mm LCD display (max. Display: 11000)
- Backlight illumination and Data-Hold function
- Large measurement ranges for a various applications
- Accurate measurements from approx. 0.5Ω, 1nF or 10µH upwards
- Handy design with non-slip and shockproof housing
- Minimum and maximum value function
- Relative value measurement function
- Diode test and continuity test function
- Auto-Power-Off function
- Safety: EN, 61010-1, IP67 dust and waterproof

- Accessories: test leads, bag, battery and manual
