«PeakTech® P 3365» Digital multimeter, 2,000 counts, with LAN tester

€55.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 3365

GTIN/EAN: 4250569400872

Description

Compact 3½-digit multimeter, developed according to the CAT III 600 V standard with integrated LAN network tester. In addition to the extensive measurement functions for voltage, current and resistance, this model has a fast-reacting continuity test with an acoustic signal and the possibility of performing diode tests. This combination measuring device is a very practical test device that easily shows the correct pin assignment of network cables by comparing a transmitter with the corresponding cable receiver using an LED. Trouble-free checking of cable passage, open, short and cross connect is possible.

Technical features

- Checks the correct pin assignment
- With the remote kit, cables of up to 300m in length can be tested
- Checking shielding in cables
- Measures direct / alternating voltage, direct / alternating current and resistance
- Continuity test with buzzer and diode test
- Safety: EN-61010-1; CAT III 600 V
- Accessories: test leads, bag, batteries and manual

Specifications

Basic Accuracy DC:	+/- 0,5%
Digital counts:	2.000
Display Type:	LCD
LAN-Tester:	■
Over voltage category:	CAT III 600 V
Range selection:	Auto
V DC max.:	600V
mA DC max.:	200mA
mV DC max.:	200 mV
µA DC max.:	2000 µA
V AC max.:	600 V
mA AC max.:	200 mA
µA AC max.:	2000 µA
