Product number: P 3730

GTIN/EAN: 4250569400988

Description

The PeakTech 3730 is suitable for testing capacitors in the range 2 nF to 200 µF, coils from 2 mH to 20 H and resistors from 200 Ω to 20 MΩ. The 3 ½ digit, 21 mm LCD display (max 1999) enables the user to read the values ⌧ quickly and precisely. Furthermore, this combination device also has a diode test, continuity test and transistor test function. The capacitors to be measured can be plugged directly into the terminal socket or with the test leads which are provided.

Technical features

- hFE test
- Diode and continuity test
- Battery status indicator
- Accessories: holster, test leads, battery and manual

Specifications

Capacitance max.: 600 µF

Digital counts: 2.000
