«PeakTech® P 4970» 3 in 1 IR-Thermometer

€49.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 4970

GTIN/EAN: 4250569401183

Description

Compact and handy infrared thermometer which you can use to carry out contactless measurements (with infrared) and measurements by direct contact. The fold-out probe can be used to pierce into the object to be measured and the temperature probe measures the outside temperature of the object. The PeakTech 4970 automatically adjusts the display of the respective measurement. This means that when the penetration probe is unfolded, the display rotates 180 ° that a successful reading of the measured value is guaranteed. After the sensor has been folded in again, the display turns back to its original state.

Technical features

- Adjustable emission factor 0.1 ... 1.0
- Measuring mechanism holding function and MAX, MIN value and LOCK function
- Overload indicator and automatic switch-off
- Lock feature for continuous scanning
- Accessories: carrying case, battery and manual
