«PeakTech® P 5002» LED-Tester 0 … 300V DC

€59.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 5002

GTIN/EAN: 4250569404313

Description

An extremely practical component tester for LEDs and other components. The device outputs an automatically raised output voltage between 0 to 300 V DC, which adapts to the connected load so that the sensitive components are not destroyed. Particularly suitable for the service and repair workshop.

Technical features

- Output of automatic test voltage from 0V to 300V
- Suitable for testing individual LEDs or LED panels
- Suitable for testing the withstand voltage of electrolytic capacitors
- Suitable for Zener voltage testing of Zener diodes
- Safety: EN 61010-1
- Accessories: Carrying case, Test Leads, Power Cable and Manual
