«PeakTech® P 3204» Analog galvanometer, +/- 50µA / 5 mA / 100 mV DC

€57.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 3204

GTIN/EAN: 4250569403620

Description

This galvanometer moves the pointer in relation to the direct current between the positive and negative scale side and can thus represent the current flow. Due to the analog technology used, no batteries are required - this measuring device is therefore always ready for use, even if it has not been used for a long time. A clear and easy-to-use analog measuring device offers many advantages, especially for teaching aids and training. For special user safety, the sturdy plastic housing is secured with a removable rubber holster against falling damage.

Technical features

- Analog mirror scale
- No batteries needed
- Safety: EN-61010-1; CAT III 600 V
- Accessories: bag, test leads and manual

Specifications

Display Type:	Analog (Center)
Over voltage category:	CAT III 600 V
