«PeakTech® P 9037» Energy meter 0.1 W with pivotable display

€16.75

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 9037

GTIN/EAN: 4250569407796

Description

The P 9037 energy cost meter for the socket comprehensively measures watts, voltage, current, kWh, the Cos Phi power factor, mains frequency and electricity costs. This device is an indispensable tool for anyone who wants to monitor their electricity costs accurately. The 90° pivotable, illuminated display with a large diagonal of 5.5 cm (2.2 inches) ensures that you can always read the values clearly and adjust them optimally to your viewing angle. The backlight only switches on when a button is pressed and switches off again after approx. 30 seconds. The power factor is particularly important for measuring switching power supplies accurately. With the P 9037, you can always keep an eye on your energy costs and recognise potential savings. Its ease of use and precise measurements make it a valuable addition to any household.

Technical features

- For measuring V, A, W, Hz, cos kWh and costs in €
- Large 2.2’ LCD display with illumination
- Display can be swivelled through 90
- Power factor calculation cos
- Safety: GS-tested, EN 61010-1, CAT III
- Accessories: Operating instructions
