«PeakTech® P 3295» Analog ammeter - 0 ... 1/10/100 mA / 1/10 A AC/DC

€74.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 3295

GTIN/EAN: 4250569403897

Description

This analog test instrument for working at work tables and in classrooms, in school and training areas, is particularly suitable for daily use during testing and measuring work due to its stable construction. Since no batteries are required, there is no need to constantly change the batteries. This analog ammeter has a variety of current measuring ranges, which enable measurements from 1 mA up to 10 A in the AC and DC current range. Thanks to the mirror scale, it is possible to display current measurements very precisely. The connection is made via a 4 mm safety socket for the respective measuring range.

Technical features

- For direct and alternating current measurements
- Automatic fuses for the mA measuring range / fuse in the 10A range
- No power supply needed for operation
- With 4 mm safety sockets.
- Protection class II
- Accessories: manual

Specifications

PeakTech Prüf- und Messtechnik GmbH
Gerstenstieg 4
DE-22926 Ahrensburg
