

## «PeakTech® P 5170» Vane anemometer with thermometer

€34.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 5170 GTIN/EAN: 4250569403231

## Description

This handy vane anemometer measures air speeds in meters / second, km / h, feet / minute, knots and miles per hour, as well as the current air temperature while simultaneously displaying the two measured values Mon the display. The multi-line LCD display is equipped with an automatic backlight, which activates itself at low brightness via a photodiode. On the side there are buttons for data hold, MAX, AVG or the measurement function selection. This handy and inexpensive device is particularly suitable for teaching aids or outdoor use.
