«PeakTech® P 8202» Set of laboratory cables with 4mm banana plugs

€49.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 8202

GTIN/EAN: 4250569407765

Description

These high-quality connection cables with 4mm banana plugs are the perfect addition for use with laboratory power supplies in the SELV/PELV range. The robust banana plugs fit into all standard 4mm sockets and enable a secure and reliable connection. The coupling socket on the rear allows an additional cable with a 4mm plug to be inserted, which increases flexibility and application versatility. The set consists of four colour-coded cables in red, black, blue and yellow, ensuring easy assignment and clarity. These connection cables not only offer excellent conductivity and durability, but are also easy to handle and versatile. They are ideal for professional use in the laboratory, but are also a valuable aid for the ambitious hobby electronics engineer. This comprehensive set is sufficient for a complete laboratory workstation and contains a total of 24 laboratory cables - 4 cables each of 25cm, 50cm, 75cm, 100cm, 150cm and 200cm.

Technical features

- Complete laboratory cable set with 24 cables
- Cables in red, black, blue & yellow
- In lengths of 25cm, 50cm, 75cm, 100cm, 150cm & 200cm
- 4mm to 4mm banana plug (not insulated)
- Coupling for connecting additional banana plugs
- Suitable for the SELV/PELV extra-low voltage range
