«PeakTech® P 4935» Mini IR Thermometer -50°C ... +400°C ~ 12:1

€18.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 4935

GTIN/EAN: 4250569406843

Description

The PeakTech 4935 is a handy infrared thermometer with an excellent price-performance ratio that uses a laser to measure surface temperatures quickly, easily and accurately. The laser can be aimed at hot surfaces or moving objects, allowing the operator to easily capture the temperatures to be measured from a safe distance. The device is activated by a trigger and carries out a precise (0.1°C resolution) temperature measurement in a flash. The three function keys next to the screen toggle between °C and °F, activate the laser and the backlight of the display.

Technical features

- 3 1/2 digit LCD display with white backlight
- Handy built and fast response time (approx. 0.5 s)
- Modern design and easy handling
- Auto data hold and auto power off
- Temperature display in °C or °F
- Laser for measuring point marking (can be switched off)
- Fixed emission factor at 0.95
- Accessories: Batteries and Instruction manual
