«PeakTech® P 6300» Symmetrical DC Power Supply, 30 V DC max.

€179.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 6300

GTIN/EAN: 4250569403583

Description

This laboratory power supply for symmetrical output voltage has a stepless voltage regulation. There are three output sockets on the front panel, the middle socket is acting as a center tap (0). A voltage of - 15 to 0V DC can be released from the center tap to the negative socket or a voltage of 0 - 15V DC to the positive socket. If the load is connected between the positive and negative pole, it can be released up to 30 V DC. This device also has a 5 V / 0.5 A DC fixed voltage output. As a result, this device is ideally suited for use in the training area and it is useful for explaining polarity in the DC area.

Technical features

- 3-digit, blue LED display
- Variable voltage setting
- Automatic overcurrent limitation
- High load stability and low ripple
- Robust metal housing with carrying handle
- Safety EN-61010-1
- Safety-Transformer: EN 61558 - 2 - 6
- Accessories: Power cord and manual

PeakTech®

Specifications

Auxillary output:	5 V DC
Channels:	1 CH
Cooling:	Active
Display Type:	Segment
Input voltage:	230 VAC / 50 Hz
Output Current:	0 - 1,5 A
Output Voltage:	+/- 15 V DC
SELV:	■
