Description

These test leads with 4 mm sockets have a coupling, which makes it possible to connect other test leads to them. The safety of these measuring wires is ensured by the double insulation of the lines and the contact protection against conductive metal parts. This makes these accessories ideal for use in training and service.

Technical features

- Suitable for currents up to 16 A.
- Double insulation of the lines
- Overload category CAT III 1000 V
- Safety according to IEC / EN 61010-031:2008
