«PeakTech® P 5035» Multifunction environment tester

€109.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 5035

GTIN/EAN: 4250569401220

Description

The PeakTech 5035 combines a sound level, lux, air humidity and a temperature measuring device. It is therefore ideally suited for professional and private use. The sound level meter enables dB measurements and the determination of sound level ratios. With the Lux measurement function it is possible to measure and determine various lighting conditions, e.g. the light intensity at the workplace. The measurement is carried out with a light-sensitive, highly stable silicon diode. The humidity / temperature meter works with a humidity / semiconductor element as well as a type K sensor to determine ambient temperatures or the humidity.

Technical features

- 3 1/2 digit 17 mm LCD display with function symbol
- Integrated sound level meter
- Removable LUX sensor for illuminance
- Sensor for measuring the ambient air humidity
- Type-K sensor for temperature measurement
- Data hold function and max function
- With thread for attachment to photo tripods
- Accessories: light sensor, humidity, temperature sensor, battery, bag and manual

PeakTech®

Specifications

Digital counts:	2.000
Display Type:	LCD
K-Type connection:	■
LUX:	0 ... 20000 Lux
Relative humidity:	25 ... 95 % RH
Sound level:	35 ... 100 dB
