

«PeakTech® P 205-08» Analog galvanometer +/- 35µA DC

€32.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 205-08

GTIN/EAN: 4250569401855

Description

The PeakTech 205-08 is an analog galvanometer, which is able to display currents in the range from -35 to +35 µA DC with high precision due to its scale measuring range. This inexpensive device is designed for use as a desk device / bench device, furthermore this analog device does not require a power supply, which means that it can be used permanently and economically. The respective measured values can easily be read by the student on the large analog mirror scale.

Technical features

- High quality device for use in schools and teaching materials
- Stable ABS plastic housing
- No power supply needed for operation
- With mirror scale and 4 mm safety sockets.

Specifications

Display Type: Analog (Center)

µA DC max.: +/- 35µA
