«PeakTech® P 7500» microfuse ~ 250 mA / 1000 V ~ 10.3 x 38 mm ~ super fast-acting (FF)

€3.29

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 7500

GTIN/EAN: 4250569402753

Description

This modern device protection fuse with ceramic body offers a much higher protection against damage to the measuring device when triggered than conventional glass fuses. Due to the larger design, a voltage flashover between the internal fuse holders of modern measuring devices can be effectively prevented, even with high test current voltages. Triggered fuses may only be replaced with replacement fuses of the same design and specifications in order to guarantee the safety of the device and thus also the safety of the user for future measurements.

Technical features

Specifications

Construction:	10,3x38 mm
Nominal current (A):	0,25 A
Nominal voltage (V):	1000 V
Package unit:	10 Stk.
